## England

Sato Sensei will shortly visit England. A new Seikokai branch looks like it will be established in that country joining the ever expanding International division.

## Facebook

There are many new pages being established for Seiko-Kai on the facebook website.

It appears to have become a great way for all Seiko-Kai people around the world to establish friendships or for friendships that are already established to be continued.

It is also a great way to share photos of what is going on around the world.

Technology can be a good thing, but it can never replace the time and sweat working out in the dojo gives us all.

**We are always keen to hear about what is going on with Seiko-Kai in your country. Please send any news no matter how small it is.**
